Date of Birth: April 7, 2000 | Nationality: Syrian | Gender: Male

SUMMARY

A passionate front-end developer specializing in creating dynamic, user-friendly websites and applications that deliver exceptional user experiences. With a strong foundation in web development technologies, there is a commitment to continuous learning and staying up-to-date with the latest industry trends. Dedication to innovation ensures that all projects are always at the cutting edge of technology.

PROJECTS

Portfolio:

Description: Developed a personal portfolio website to showcase professional projects, skills, and achievements. Designed a responsive and user-friendly interface optimized for both desktop and mobile platforms.

Technologies Used: HTML, CSS, JavaScript

Project Link: <https://rodi5.github.io/My-portfolio/>

E-commerce React :

Description: Developed a fully functional e-commerce site using React, Redux, and Redux-toolkit. Implemented features like product listing, shopping cart. The design is fully responsive, ensuring optimal user experience across all devices.

Technologies Used: React, Redux, Redux-toolkit, React-router-dom, TailwindCSS, JavaScript.

Project Link: <https://rodi5.github.io/E-commerce-react/>

Driving School Website :

Description: Built a responsive and user-friendly driving school website using React JS. The site includes an overview of services, a booking system, and a contact form, ensuring a smooth and interactive experience for users.

Technologies Used: React JS, CSS, JavaScript.

Project Link: <https://rodi5.github.io/driving-school-react/>

QR Code Generator :

Description: Created a simple yet effective QR code generator application using HTML, CSS, and JavaScript. Users can generate QR codes for any URL.

Technologies Used: HTML, CSS, JavaScript

Project Link: https://rodi5.github.io/QR_Code-Generator/
